

## Minimum requirements for own funds and eligible liabilities

From January 1<sup>st</sup> 2019, a requirement for total loss-absorbing capacity (TLAC) was introduced, as defined by the Financial Stability Board. In the EU TLAC requirements were implemented via EU regulation 2019/876 (also known as CRR II) that came into force in June 2019. This new regulation includes the new framework for the minimum requirements for eligible liabilities (MREL).

According with article 92a of EU regulation 2019/876, this requirement is applied to institutions considered a G-SII or that are part of a G-SII. Given the fact that Santander Totta SPGS, SA is almost fully owned by Banco Santander SA (considered a G-SII), this requirement is also applicable to Santander Totta SGPS, SA.

MREL includes own funds and eligible liabilities that can be written down or converted into capital in order to absorb losses or recapitalize the bank in the event of its failure. With this new framework new information disclosure is also included. Since final formats of this disclosure are still pending for final approval, the disclosures made on this section are done accordingly with the formats made available by the Basel Committee for the Pillar 3 disclosures requirements.

Santander Totta SGPS, SA's requirement is

- 16% of total consolidated RWAs;
- 6% of total consolidated leverage exposure
